13. Diverse diagnostics
Friday, 04 December 2015, 12:30-13:30

Chair: Joseph BURZYNSKI (USA)

Track: TB diagnostics, including molecular methods

PC-800-04 **Can line probe assay be used directly on smear-positive extra-pulmonary samples?**

P Dave, P Patel, B Vadera, M Ghedia, H Thanki, A Amar Shah, K Pujara *(India)*

PC-801-04 **Evaluation of colorimetric detection based liquid culture system for rifampicin testing for Mycobacterium tuberculosis**

R Singhal, Manp Bhalla, N Singh, R Sarin, D Behera, P Sharma *(India)*

PC-802-04 **Evaluation of the bacteriological diagnosis of adult tuberculous meningitis in Indonesia**

L Chaidir, J Annisa, S Dian, C Ruesen, B. Alisjahbana, I Parwati, A.r Ganiem, R Van Crevel *(Indonesia, Netherlands)*

PC-803-04 **Genotyping of Mycobacterium tuberculosis isolated in a national reference laboratory in Baghdad**

Ruqa Ali, A Al Sudani, Lyat Salihi, M Abdulrazaq *(Iraq)*

PC-804-04 **Effectiveness of the detection of LTBI infection using tuberculin skin test and CFP-10-ESAT-6 allergen in children and adults in Moscow, 2013-2014**

L Slogotskaya, E Bogorodskaya, O Senchihina, G Nikitina, V Litvinov, P Seltsovsky, D Kudlay, N Nikolenko *(Russian Federation)*

PC-805-04 **A sensitive urinary lipoarabinomannan test for tuberculosis in HIV-negative patients**

A Westman, B Hamasur, G Fröberg, J Bellbrant, M Correia-Neves, J Bruchfeld, G Kallenius *(Sweden)*

PC-806-04 **Bedaquiline minimal inhibitory concentration quality control ranges for drug susceptibility testing in a multi-laboratory study**

K Kaniga, D M Cirillo, S Hoffner, N Ismail, B Metchock, G Pfyffer, A Sloutsky, A Venter *(USA, Italy, Sweden, South Africa, Switzerland)*

PC-807-04 **Which attributes within target product profiles for TB diagnostics are the most important to focus on?**

T Adepoyibi, L Lillis, H Greb, D Boyle *(USA)*

PC-808-04 **Use of automated MGIT culture tubes with a conventional incubator and manual reader for TB diagnosis in resource-limited settings**

A Kruuner, B Kosloff *(Zambia)*
