

20. IAP, pneumonia, asthma and chronic lung disease
Saturday, 05 December 2015, 13:30-15:00

Chair(s): Charles FELDMAN (South Africa), Asma EL SONY (Sudan)

Track: COPD, asthma and other lung health

- OA-451-05** **Does 'Ringland' improve air quality and health in Antwerp? Health impact assessment of a predicted air pollution change by covering the Antwerp Ring**
13:30-13:40
D Van Brusselen (*Belgium*)
- OA-452-05** **Change over time in peak expiratory flow among workers exposed to polyvinyl chloride dust**
13:40-13:50
H Lawin, P Ayelo, V Hinson, J Kagima, B Fayomi (*Benin, Kenya*)
- OA-453-05** **Asthma control rates in Burundi: preliminary study of 183 cases**
13:50-14:00
F Ndikumwenayo (*Burundi*)
- OA-454-05** **Sequelae following successful treatment of multidrug-resistant tuberculosis patients under the national programme in India**
14:00-14:10
R Singla, Mana Mallick, N Singla, Sush Munjal (*India*)
- OA-455-05** **Is monitoring CO₂ an acceptable surrogate for rebreathed air volume assessment?**
14:10-14:20
C Morrow, W Bryden, C Call, R Wood (*South Africa*)
- OA-456-05** **High burden of respiratory morbidity among individuals treated for recurrent tuberculosis in Southern Africa**
14:20-14:30
J Metcalfe, S Makumbirofa, R Penaloza, T Vu, P Hopewell (*USA*)
- OA-457-05** **The Cooking And Pneumonia Study: successful implementation of electronic data capture in rural Malawi with source document verification from the UK**
14:30-14:40
W Weston, K Mortimer, J Smedley (*UK*)
- OA-458-05** **Obliterative bronchiolitis: a common cause of chronic lung disease in older adolescents with vertically acquired HIV**
14:40-14:50
J Rylance, S Desai, A Nair, G Mchugh, J Metcalfe, H Mujuru, K Kranzer, R Ferrand (*UK, Zimbabwe, USA*)
- 14:50-15:00 Discussion
