

Friday, 04 December 2015, 07:30 - 08:45

Room Da Gama/Diaz-Westin

Type of session	Sponsored Satellite Symposium
Track	TB other
Track2 (optional)	Advancing the End TB strategy and other policy issues
Organised by	Global TB Vaccine Partnership
Description	The goal of the Global Tuberculosis Vaccine Partnership (GTBVP) is to develop effective, safe and affordable TB vaccines for all people in the shortest possible time and in the most cost-effective way. GTBVP brings together key stakeholders in new TB vaccine R&D. These include major funders, vaccine industries and PDPs. The GTBVP aims to increase the likelihood of successful and cost-efficient TB vaccine development by identifying, prioritising and monitoring the global portfolio of preclinical and clinical TB vaccine candidates; promote and facilitate access to sustained financing for prioritised candidates; facilitate exchange of information between funders; and connect the existing and future research networks in TB vaccine area.
Target audience	<ol style="list-style-type: none"> 1. International researchers 2. Funders of TB vaccines
Objectives	<ol style="list-style-type: none"> 1. Discussion of the overall progress with the Global TB Vaccine Partnership (GTBVP) 2. Release of the Charter for the GTBVP
Keywords	Global TB Vaccine Partnership
Coordinator(s)	Glaudina Loots (South Africa)
Chair(s)	Line Matthiessen (Belgium)
Presentations
